課程大綱

February 2019 / June 2019

This course will be structured according to the Neurolinguistic Approach (NLA) developed by Claude Germain and Joan Netten. This language learning method is an extremely innovative one and it allows even feeble students to learn successfully a second language.

The course features will help students develop their spoken and written skills.

By the end of the semester, students will be able to understand and use everyday language structures in French and phrases aimed at the expression of habits and preferences of a concrete type. They will be able to interact in an effective way.

ANL teaching materials will be combined with the following manual for DELFL B1 exam preparation:

Kober-Kleinert, Corinne, Parizet, Marie-Louise, ABC DELFL B1, CLE International, 2012.
